

Retractable Awnings for Your Deck or Patio!

A Retractable Awning is an awning that projects and retracts either manually or with the touch of a button. When open they are completely self-supporting so there are no angled braces or supports in the way. You have complete unobstructed use of the area underneath.

I'd like to take a moment and thank you for your past business with my company, Gaithersburg Garage Door. I don't take your trust in our company for granted and work hard to earn that trust every single day. I do that by offering products that add beauty, value and energy efficiency to your home with reasonable prices and unsurpassed customer service. One such product is the Retractable Awning that I have been selling through my company, The Deck Awning Company, Since 1992.

These awnings will turn a hot sunny deck into a cool, comfortable place to relax and enjoy the outdoors with the touch of a button.

We'd be glad to demonstrate these for you at our showroom or we can come to your home for a free estimate. And as usual, there will be no pressure to buy. We simply present our products and they sell themselves.

Sincerely,
Peter Giglio
